

## •Highlights from this Meeting:

- Jay Bugenhagen and Dan Smith (NASA) presented the Mission Control Message Specification (MCMS) final document from NASA. The task force voted to recommend the specification as an RFC to the Domain Technology Committee
- Discussed improvements to the CubeSat Mission Independent Model RFP (CMIM), which was renamed from CubeSat Reference Model (CRM) because of the acronym overlap with popular alternative meanings.
- Discussed creation of logos for all of the published Space DTF specs for OMG promotional materials that would be compliant with the newly established guidelines.
- Chokri Mraidha and Jeremie Tatibouet presented a MARTE 1.0 overview and discussed requirements for a 2.0 update with the task force.

OBJECT MANAGEMENT GROUP®

TC Meeting Date: 23 Mar 2018  
Reporting Chair: Brad Kizzort
